CARMA 2011-2012 Consortium Webcast Program
Live Research Methods Lectures
(visit our website for viewing room at your school)

September 23, 2011

Debunking Myths and Urban Legends About Meta-Analysis
Dr. Herman Aguinis, Indiana University

October 21, 2011

Practical Scale Development Issues
Dr. Fred Oswald, Rice University

November 18, 2011 (3 lectures)

Control Variables and Multi-Collinearity: Things We Thought We Knew
Dr. Kevin Carlson, Virginia Tech University

3-D Visualization of Data and Models

Dr. Richard Gonzalez, University of Michigan

Modeling Longitudinal Data Using Structural Equation Methods

Dr. Rick Hoyle, Duke University

January 27, 2012

Using Secondary Data to do Quality Research
Dr. Michael Hitt, Texas A & M University

February 24, 2012 (2 lectures)

Photo Elicitation as a Data Source
Dr. Anne Smith, University of Tennessee

Ethnographic Writing

Dr. John Van Maanen, Massachusetts Institute of Technology

April 13, 2012 (2 lectures)

Meta-analysis and Structural Equation Modeling
Dr. Ron Landis, Illinois Institute of Technology

Conditional Reasoning and the Measurement of Power
Dr. Lawrence James, Georgia Institute of Technology
