

CARMA Video Library Content

Structural Equation Methods

Dr. Ken Bollen, University of North Carolina
The Meaning of Latent Variables in Social and Behavioral Science Research

Dr. Jose Cortina, George Mason University
Goodness of Fit & Structural Equation Models.

Dr. Jeff Edwards, University of North Carolina (Chapel Hill)

Methods for Integrating Mediation & Moderation

Dr. Jeff Edwards, University of North Carolina (Chapel Hill)

Moderation in Structural Equation Modeling

Dr. Greg Hancock, University of Maryland

Mean Structure Modules with Latent Variables

Dr. David MacKinnon, Arizona State University

Mediation Analysis

Dr. Roger Millsap, Arizona State University

Measurement Invariance & Applied Research

Dr. Eugene Stone-Romero, University of Central Florida

Testing Mediation Effects with Non-Experimental Research

Dr. Robert Vandenberg, University of Georgia
Multi-Level Structural Equation Methods

Dr. Larry Williams, Wayne State University
New Approaches for Evaluating Latent Variable Relations

Dr. Peter Bentler, University of California (Los Angeles)

Formative vs Reflective Measurement in Structural Equation Modeling

Dr. Larry Williams, Wayne State University
Marker Variables and Method Variance: Models and Processes

Dr. Russell Johnson, Michigan State University
Assessing the Validity of Higher-Order Multidimensional Constructs

Dr. Ron Landis, Illinois Institute of Technology
Meta analysis and Structural Equation Modeling

Longitudinal Analysis

Dr. Paul Bliese, Walter Reed Army Institute
Discontinuous Growth Models

Dr. Jorge Mendoza, University of Oklahoma
Repeated Measures ANOVA & MANOVA

Dr. Robert Ployhart, University of South Carolina
Longitudinal Data Analysis

Dr. Robert Vandenberg, University of Georgia
Latent Growth Models for Longitudinal Data

Dr. Rick Hoyle, Duke University
Modeling Longitudinal Data Using Structural Equation Methods

Qualitative Analysis

Dr. Karen Golden-Biddle, Boston University
Cultivating the Discovery Process in Field Research

Dr. Karen Locke, College of William & Mary
The Practice of Member Review in Qualitative Research

Dr. Michael Pratt, University of Illinois
Publishing Criteria for Qualitative Research

Dr. Robert Gephart, University of Alberta
Ethnostatistics

Dr. Anne Smith, University of Tennessee
Photo Elicitation as a Data Source

Dr. John Van Maanen, Massachusetts Institute of Technology

Ethnographic Writing

Strategic Management

Dr. Donald Bergh, University of Denver
Strategy and Research Methods Development

Dr. Harry Bowen, Queen's University of Charlotte
Using the Censored Regression Model (TOBIT) in Management Research

Dr. Brian Boyd, Arizona State University
Current Issues with Organizational Level Measurement & Strategy Research

Dr. Dan Dalton, Indiana University
Meta-Analysis & Strategy Research

Dr. Jonathan Doh, Villanova University
Using Spatial Analysis in Strategy Research

Dr. Peter Hom, Arizona State University
Advanced Panel Methods for Strategy Research

Dr. J. Myles Shaver, University of Minnesota
Testing for Mediating Variables in Management Research: Concerns, Implications, and Alternative Strategies

Dr. Jeremy Short, Texas Tech University
Computer-Aided Test Analysis: Tips & Techniques

Dr. Robert Wiseman, Michigan State University
The Use & Misuse of Ratios Measures

Dr. Brian Boyd, Arizona State University
Tools for Testing Contingency Models

Dr. Richard Priem, University of Wisconsin (Milwaukee)

Judgment Policy Analysis

Dr. Michael Hitt, Texas A & M University
Using Secondary Data to do Quality Research

CARMA Video Library Content

Levels of Analysis

Dr. Gilad Chen, Texas A&M University

Conceptualization, Measurement & Validation of Multilevel Constructs

Dr. David Hoffman, University of North Carolina (Chapel Hill)

Hierarchical Linear Modeling

Dr. Katherine Klein, University of Pennsylvania

Issues with Group Level Measurement

Dr. James LeBreton, Wayne State University

Measures of Agreement for Group Level Research

Dr. Laurie Weingart, Carnegie Mellon University

Dynamic Approaches to Analyzing Group Processes

Dr. Fran Yammarino, State University of New York at Binghamton

Multi-Level Issues with WABA

Dr. David Kenny, University of Connecticut

Dyadic Data Analy

Data Analysis & Research Methods

Dr. Herman Aguinis, Indiana University

Review of Research Methods in Organizational Studies

Dr. Steve Borgatti, University of Kentucky

Simple Models for Analyzing Network Change

Dr. Dan Brass, University of Kentucky

Issues in Social Network Analysis

Dr. Michele Gelfand, University of Maryland

Methodological Issues in Cross-Cultural Research

Dr. Paul Hanges, University of Maryland

Nonlinear Dynamic Models

Dr. John Hollenbeck, Michigan State University

Contributing to Applied Psychology with Laboratory Research

Dr. Kevin Murphy, Pennsylvania State University

Power Analysis for Traditional & Modern Hypothesis Tests

Dr. Adam Grant, University of Pennsylvania

Quasi-Experimental Research

Dr. Mark Peterson, Florida Atlantic University

Cross Cultural Research Methods

Dr. Charles Reichardt, University of Denver

Lies My Statistics/Methods Teacher Taught Me

Dr. Deborah Bandalos, James Madison University

Detecting and Diagnosing Model Misspecification

Dr. Daniel A. Newman

Missing Data: Problems and Prospects

Dr. Herman Aguinis, Indiana University

Debunking Myths and Urban Legends About Meta-Analysis

Dr. Richard Gonzalez, University of Michigan

3-D Visualization of Data and Models

Correlation/Regression Models

Dr. Herman Aguinis, Indiana University

Estimating Interaction Effects with Multiple Regression

Dr. Michael Burke, Tulane University

Estimating Confidence Intervals for Correlations

Corrected for Unreliability & Range Restriction

Dr. David Harrison, Pennsylvania State University

Regression Models for Limited Dependent Variables

Dr. James LeBreton, Purdue University

Relative Importance of Predictors with Regression Models

Dr. William Starbuck, University of Oregon

Robust Regression

Dr. Peter Westfall, Texas Tech University

Joint Analysis of Multiple Categorical Dependent Variables

Dr. Richard DeShon, Michigan State University

Multivariate Dynamics

Dr. Kevin Carlson, Virginia Tech University

Control Variables and Multi-collinearity: Things We Thought We Knew

Measurement – Individuals

Dr. Claudia Cogliser, Texas Tech University

Current Issues with Individual Level Measurement

Dr. Daniel Ganster, University of Arkansas

Measurement Issues in Stress Research

Dr. Larry James, Georgia Institute of Technology

Conditional Reasoning & Personality Measurement

Dr. Larry James, Georgia Institute of Technology

Effects of Criterion Reliability on Means/Interactions in Meta-Analysis

Dr. Adam Meade, North Carolina State University

Question & Context Effects in Organizational Survey Data

Dr. Steven Rogelberg, University of North Carolina (Charlotte)

Non-responses to Organizational Surveys

Dr. Paul Sackett, University of Minnesota

Restriction of Range

Dr. Neal Schmitt, Michigan State University

Item Response Theory

Dr. Jeff Stanton, Syracuse University

Issues with Internet Data Collection

Dr. Howard Weiss, Purdue University

Measurement of Affect & Episodic Events

Dr. Larry Williams, Wayne State University

Measurement Models for Linking Latent Variables and Indicators: A Review of Alternatives for Organizational Researchers

Dr. Fred Oswald, Rice University

Practical Scale Development Issues

Dr. Lawrence James, Georgia Institute of Technology

Conditional Reasoning and the Measurement of Power
